

LABÜRINT

Leia õige rada. Edasi võid liikuda vaid mööda tõeseid tehteid.

Värvi õige teekond siniseks. Kui lahendad ülesande õigesti, saad teada, mis kuupäeval tähistatakse veebruari kuus

Eesti Vabariigi aastapäeva.

The maze consists of a grid of circular nodes. Each node contains a multiplication problem. The path is determined by solving these problems and moving only through correct results. The multiplication problems are as follows:
