

LABÜRINT

Leia õige rada. Edasi võid liikuda vaid mööda tõeseid tehteid.
 Värvige õige teekond roheliseks. Kui lahendad ülesande õigesti, saad teada, kui vanaks võivad elada küülikud.

A maze grid where each cell contains a multiplication problem. The correct path is indicated by a shaded arrow at the top. The multiplication problems are as follows:
